

AMAN DUBEY

SOFTWARE DEVELOPER

PROFILE

Dedicated and detail-oriented Software Developer with 1.5 years of extensive experience in web development and RESTful API development. Proficient in a variety of programming languages and frameworks, including Python, Flask, Django, DHTML, React.js, and Node.js. Demonstrated success in delivering high-quality, efficient solutions for complex technical challenges. Strong problem-solving skills, a keen eye for detail, and a commitment to continuous learning and improvement. Proven ability to work collaboratively in agile environments, ensuring seamless project execution and delivery.

WORK EXPERIENCE

- **Datanutts IT Solutions** DEC 2022 - PRESENT
Software Developer

Observability Utility

Contributed to the development of an observability utility to automate error detection and resolution for IDMC jobs.

Technologies : React.js.

Key Responsibilities :

- Developed responsive and interactive user interfaces using React.js to enhance user experience.
- Integrated RESTful APIs to fetch and display real-time system performance data.
- Collaborated with backend developers to ensure seamless data flow and API integration.
- Implemented state management and component lifecycle methods to ensure efficient data handling and rendering.
- Utilized modern React.js features such as hooks to streamline code and improve maintainability.

Talos eClinic

Developed a comprehensive web-based healthcare management

Technologies : DHTML, Django, PostgreSQL

Key Responsibilities :

- Designed dynamic and interactive web pages using DHTML.
- Implemented backend logic and APIs with Django.
- Managed and secured data with PostgreSQL.
- Conducted unit, integration, UAT, and performance testing.
- Deployed and maintained the application on a Google Cloud Platform Virtual Machine.

HRMS (Human Resource Management System)

Developed a robust Human Resource Management System to streamline and automate HR processes, enhancing operational efficiency and employee experience.

Technologies : DHTML, Flask

Key Responsibilities :

- Designed dynamic and interactive web pages using DHTML.
- Implemented backend logic and APIs with Flask.
- Managed and secured data with PostgreSQL.
- Conducted unit, integration, UAT, and performance testing.

EDUCATION

2021-2023

SAMRAT ASHOK
TECHNOLOGICAL INSTITUTE

- Master of Computer Applications
- CGPA: 8.32 / 10

SKILLS

- Python
- HTML, CSS, JavaScript
- SQL
- Data Integration
- ETL Processes
- Version Control

TOOLS/TECH

- **Frameworks/Packages:** Flask, Django, React, Node.
- **Databases:** MySQL, SQL
- **ETL Tools:** Informatica Cloud Data Integration
- **Version Control:** GitHub
- **IDE:** VS Code
- **Other Tools :** Docker, Postman, JIRA
